## SECTION 13: DISPOSAL CONSIDERATIONS

**Waste Disposal Method:** Disposal of used PPS components containing paint/coating material should follow all local, state and federal regulations.

To dispose of used PPS liners and lids, separate lid from liner and empty. To empty the PPS liner pour or scrape excess material from liner into appropriate collection container.

When used PPS lids and liners are empty, an exemption under the federal waste regulations allows them to be disposed of as part of a non-hazardous waste stream. See United States Code of Federal Regulations, C.F.R. 40 pt 26. for definition of empty. State or local regulations may impose different or additional requirements.

Paint and coatings, such as those typically used in the automotive industry, are generally solvent based and subject to hazardous waste regulations. Consult the manufacturer paint/coating (MSDS) for specific information.

Since regulations vary, consult applicable regulations or authorities before disposal.
