

# GLIDE

## TIRE BEAD LUBRICANT

✓ **Helps Seal Tire Bead**

Water-based lubricant for quick mounting and dismounting of tires. Viscous: will not run off without doing the job. Concentrated, mixes easily and completely with water. Will not separate. Contains rust inhibitors to prevent rusting of rims. Tire adheres

✓ **Contains Rust Inhibitors**

to rim and will not slip. Helps to seal tire bead and reduces bead damage. Will not gum up the bead or rim to hinder future use. Reduces friction, saves wear and repair on tire changers. Contains no soap or petroleum products.

### Directions:

**General:**

**Mounting tire:** Swab on bead area thoroughly. Mount tire onto the wheel and inflate.

**Dismounting tire:** Swab on bead and rim with only enough to assist in easy dismounting.

*Use "as is" (concentrated) or diluted with 2 parts of water to extend volume three times farther.*

Dilution Schedule:
Volume extension: ..... 2:1
