WIH-31590

10 Piece Insulated Socket Set 3/8" Drive - Metric

- Tested to 10,000 volts AC
- Rated to 1,000 volts AC
- Meets ASTM F1505 standard specifications for insulated and insulating hand tools
- CSA testing benchmarks for safety and performance.
- Comes with an assortment of sockets

WIH-32080

**10 Piece Insulated SoftFinish Cushion Grip Screwdriver Tray Set**

- Ergonomic cushion grip handles
- Dual durometer construction for long-lasting durability
- Handles directly molded to the blade for a permanent bond.
- Handles include parallel flats to prevent table-top roll-off
- Wiha engineered premium quality tool steel for strength and durability

WIH-32097

7 Piece Insulated SoftFinish Screwdriver Set

- Ergonomic cushion grip handles
- Dual durometer construction for long-lasting durability
- Handles directly molded to the blade
- Handles include parallel flats to prevent table-top roll-off
- Wiha engineered premium quality tool steel for strength and durability

WIH-32800

80 Piece Master Electrician's Insulated Tools Set In Rolling Hard Case

- Individually tested to 10,000 volts AC and rated to 1,000 volts AC.
- Meets EN/IEC 60900 testing standards and ASTM F1505 standard specifications
- This product is backed by the Wiha No Hassle Guarantee
- The SAE insulated socket set comes with an assortment of sockets

- Weight: 372 lbs

OTC
OTC-5295

1,760 Lbs Capacity Split Table Top Power Train Lift
- Sliding split table top design allows for separation of the engine/transmission assembly or hybrid engine/generator module
- Uniquely designed to handle removal and installation of electric vehicle batteries, fuel tanks, suspension systems, and future powertrains
- Generous ground clearance for floor crane access
- Low collapsed height aids servicing large components while still on lift
- Tilting table provides alignment correction during vehicle installation
- Threaded holes in table to accommodate future adapters

ATD-7478

2,500 Lbs Power Train Lifting Table
- Designed to handle heavy engine, drive axle assemblies, transmissions, electric vehicle batteries and other vehicle components
- Scissors lift design allows access to all (4) sides of a component
- Independent adjusting screws tilt the table 11? side-to-side, front-to-back
- (2) sets of heavy duty ratcheting tie down straps to secure vehicle component during movement and installation
- Mechanical safety latches at 30%, 50% and 80% of max height provides additional operator safety
- Air/hydraulic foot pump with 10 ft. hydraulic hose extension
- (2) 8" diameter locking swivel casters for easy movement and secure positioning
- Meets or exceeds ASME/PASE 2019 standards
- Capacity @ 100 psi: 2,500 lbs.
