CribMaster ProLock

Scalable Locker Solution

This access-controlled, flexible locker solution allows you to manage the distribution of both consumable items and valuable assets such as returnable hand tools and power tools.

CribMaster ToolBox

Secure Storage, Flexible Dispensing

Sustainable point-of-use dispensing to help you manage and control cutting tools, MRO, PPE, consumable items.

CribMaster WeightStation

Simplified Dispensing, Advanced Control

Automates dispensing by utilizing precise weight-sensing technology paired with robust software that effectively streamlines purchasing, replenishment, and dispensing processes.

About CribMaster

CribMaster is a STANLEY brand, part of the Stanley Black & Decker organization.

For more than two decades, CribMaster has delivered intelligent inventory and asset management solutions that improve the performance of industrial sites all over the world.

Why Use CribMaster?

Tool & Crib Inventory Management

Enables you to eliminate virtually all manual tool crib procedures – resulting in increased productivity and cost savings.

Mobility

By keeping you connected to a centralized database, CribMaster software lets you manage your inventory from wherever you are.

Asset Tracking

Using RFID tags and antennas that communicate with CribMaster software, you can verify the last known location of critical assets and tools, helping you to significantly lower replacement costs and potential safety risks.
