

## PRODUCT DATA

### 4063-F

## Super Stick Trim Adhesive (50 State)

### DESCRIPTION:

Super Stick Trim Adhesive is a non-staining, fast drying, high strength material. For best results, use at room temperature. This product is 50 state compliant and meets all regulations for sale in the USA. Meets CARB/OTC V.O.C. limit with 54% V.O.C.

### USE:

The methylene chloride free formula bonds carpets, trunk linings, trim fabrics (except vinyl) and silencer pads. Super Stick Trim Adhesive can also be used as a good general purpose rubber cement.

### APPLICATION:

Shake well. Wash and solvent clean to remove all road dirt, grease and silicone. Use Aqua SCAT #6351/6354, Speedi SCAT #6321/6323, or SCAT #6311. Select desired spray pattern by turning activator button. Hold can 6 - 10 inches from surface, apply a uniform overlap coat to both bonding surfaces. Allow to flash for 1 - 3 minutes until tacky, then press firmly together.

CAUTION: Since solvent may mar or attack some plastic or painted surfaces, masking is required where overspray may occur. This product is not recommended for installation of complete or partial vinyl tops. It may be used for small repair jobs on vinyl tops.

### SALES POINTS:

- Fast drying
- High strength
- Adjustable spray nozzle
- Convenient aerosol
- Methylene chloride free formula
- 50 State Compliant

### COMPETITION:

3M Super Trim Adhesive

*(Refer to Material Safety Data Sheet for proper handling of products listed in this bulletin).*
